

THE WONDER SHIP

Among the Stars

Piloted by Mr. Domkam &
Mr. Johnson

GROWN-UPS, READ THIS PART FIRST

How to Fly This Book

This book only works if you **move**.

Every page has a **PAUSE**. Stop reading. Do the thing.
Then keep going.

The breathing on pages 3 and 4 is the same in every Wonder Ship book. That is on purpose — it becomes a tool your children can use when the book is closed.

You need nothing. No materials. Just bodies, voices, and breath.

**The Wonder Ship is sleeping.
To wake her up, we breathe.
Put your hand on your chest.
Breathe in...**

PAUSE: Hand on chest. Breathe in.

GROWN-UPS: *Vibration* — EFV Lesson 1, STEAM Class 1. Hands stay on chests for this whole spread.

...and breathe out.

Slow. Soft. Warm.

Now hum. Hmmmmmmm.

Did you feel the little buzz?

That is your engine.

PAUSE: Breathe out. Hum. Feel the buzz.

GROWN-UPS: Every sound starts as a vibration. They just found theirs.

Now the claps.

Clap. Clap. Pat. Whoosh.

Slow claps keep her sleepy.

Sloooow... claaap... paaat... whooooosh...

PAUSE: Slow it down. Four beats.

GROWN-UPS: The Wonder Ship Clap. A pattern of 4 — STEAM Class 4. Slow tempo, low energy.

Faster now. Faster!
Clap! Clap! Pat! Whoosh!
Mr. Johnson checks the sky.
Mr. Domkam counts.
One — two — three — GO!

PAUSE: Speed up the claps until liftoff.

GROWN-UPS: *Energy* — EFV Lesson 2. Faster, harder claps carry more energy. The children are the engine.

UP goes the Wonder Ship.

Up past the roof.

Up past the birds.

Up past the clouds.

Up past the sky.

PAUSE: Stretch both arms up. Reach higher on each “up.”

GROWN-UPS: Five ups, five reaches. Build the stretch each time.

Look in the porthole.

Black.

All black.

And... sparkles.

PAUSE: Make a porthole with your hands. Peek through.

GROWN-UPS: A quiet beat. Three seconds before turning.

**The engine goes quiet.
No bump.
No landing.
We just... float.**

PAUSE: Go completely still. Freeze.

GROWN-UPS: Stillness right after motion. Notice who can hold it — that is self-regulation developing.

**We are in space.
Open your eyes big.
What do you see?**

PAUSE: Open your eyes wide. Look around.

GROWN-UPS: Take every answer. Observation before explanation.

Look! A tiny, tiny star.
Tiny stars sing high.
eee — eee — eee

PAUSE: Sing high with the tiny star. *eee!*

GROWN-UPS: *Frequency* — EFV Lesson 3. Fast vibration sounds high.

Look! A big, big star.
Big stars sing low.
ohhhhhhhhhhhh

PAUSE: Sing low with the big star. *ohhh.*

GROWN-UPS: Slow vibration sounds low. Same voice, different speed. That is the whole idea.

Reach up high — sing high!

eee!

Curl down low — sing low!

ohhh.

High. Low. High. Low.

PAUSE: Four times. Reach and curl.

GROWN-UPS: Body height mapped to pitch. Pure EFV Lesson 3 — and it works on three-year-olds.

Now wiggle your hands fast.

Fast wiggle — high sound!

Now wave them slow.

Slow wave — low sound!

Your body is the dial.

PAUSE: Wiggle fast = high. Wave slow = low.

GROWN-UPS: They are operating a frequency control. Hold your own hand up and conduct them.

Step out. Careful!
There is no down here.
You float.

PAUSE: Take one very slow step.

GROWN-UPS: Slow-motion movement is hard. It builds control, not just energy release.

Mr. Johnson floats upside down.
Mr. Domkam floats in a slow, slow circle.
Float with them.

PAUSE: Arms wide. Turn slowly in one circle.

GROWN-UPS: Vestibular input. One circle only, then stop and steady.

1

2

3

Float!

Arms wide. Sloooow.

One... slow... step.

Two... slow... step.

Three... slow... step.

PAUSE: Three slow floating steps.

GROWN-UPS: Counting to three while moving. Numeracy hidden inside gross motor.

Now a moon jump!
Bend down low...
and... BOING!
You go so high.
You come down so *slow*.

PAUSE: Three moon jumps. Land soft.

GROWN-UPS: Big proprioceptive input. This is the energy-release page — spend time here.

**Now stop.
Listen.**

-
-
-

Nothing.

PAUSE: Total silence. Five seconds.

GROWN-UPS: *Vacuum* — EFV Lesson 11, STEAM Class 11. Space is empty; sound has nothing to travel through. Do not fill this page with words.

Space is empty.
Sound needs something to swim through.
But hum — hmmmmm —
and you hear it.
Because you are something.

PAUSE: Hand on chest. Hum. You can hear yourself.

GROWN-UPS: Sound travels through solids — including the child's own bones. It is the one sound that works in space, and they carry it.

**Time to go home.
Hand on your chest.
Breathe in...
...and breathe out.**

PAUSE: Same breath as page 3. Twice.

GROWN-UPS: The mirror. This is the regulation tool — the exact move you will reuse at line-up and nap time.

Clap. Clap. Pat. Whoosh.

Faster! Faster!

Down through the sparkles.

Down, down, DOWN!

PAUSE: The Wonder Ship Clap. Slow to fast.

GROWN-UPS: Note the flip — Book 1 goes UP to come home, Book 2 comes DOWN. Ask them why.

Bump.

We are back.

**Mr. Johnson smiles.
Mr. Domkam claps once.**

MISSION LOG

**What did the quiet in space
sound like?**

PAUSE: Everyone makes their own sound. Just one.

GROWN-UPS: *Signature sound* — STEAM Class 12. Every child's sound is different. Say that out loud.

The Wonder Ship Clap

You can fly any time.

1

CLAP

your
hands

2

CLAP

your
hands

3

PAT

your
knees

4

WHOOSH

breathe out

Slow to rest.

Fast to fly.

***Mentality Over Excuses — no materials, no
excuses, all music.***
