

THE WONDER SHIP

Into the Deep

Piloted by Mr. Domkam & Mr. Johnson

ILLUSTRATION

The Wonder Ship at rest on the classroom carpet, children gathering around it. Warm light. Title above the ship.

GROWN-UPS, READ THIS PART FIRST

How to Fly This Book

This book only works if you **move**.

Every page has a **PAUSE**. Stop reading. Do the thing. Then keep going.

The breathing on pages 3 and 4 is the same in every Wonder Ship book. That is on purpose — it becomes a tool your children can use when the book is closed.

You need nothing. No materials. Just bodies, voices, and breath.

ILLUSTRATION

Children seated on the carpet, hands flat on their chests, eyes closed. Ship breath-lights dim. Warm classroom light from one side.

**The Wonder Ship is sleeping.
To wake her up, we breathe.
Put your hand on your chest.
Breathe in...**

PAUSE: Hand on chest. Breathe in.

GROWN-UPS: *Vibration* — EFV Lesson 1, STEAM Class 1. Hands stay on chests for this whole spread.

ILLUSTRATION

Same camera position, one beat later. Breath-lights brighter. One child smiling with surprise at the buzz.

...and breathe out.

Slow. Soft. Warm.

Now hum. Hmmmmmmm.

Did you feel the little buzz?

That is your engine.

PAUSE: Breathe out. Hum. Feel the buzz.

GROWN-UPS: Every sound starts as a vibration. They just found theirs.

ILLUSTRATION

Wide shot of the group, hands mid-clap. Clap-meter on the console showing 1 of 4 lamps lit. Slow, heavy, sleepy feeling.

Now the claps.

Clap. Clap. Pat. Whoosh.

Slow claps keep her sleepy.

Sloooow... claaap... paaat... whoooosh...

PAUSE: Slow it down. Four beats.

GROWN-UPS: The Wonder Ship Clap. A pattern of 4 — STEAM Class 4. Slow tempo, low energy.

ILLUSTRATION

Same shot, energy way up. Motion lines on every hand. All 4 clap-meter lamps lit. Mr. Domkam grinning, Mr. Johnson counting on his fingers.

Faster now. Faster!

Clap! Clap! Pat! Whoosh!

Mr. Domkam grins. Mr. Johnson counts.

One — two — three — GO!

PAUSE: Speed up the claps until liftoff.

GROWN-UPS: *Energy* — EFV Lesson 2. Faster, harder claps carry more energy. The children are the engine.

ILLUSTRATION

Exterior. The ship rising past a classroom window, then birds, then clouds. Tall vertical composition, lots of upward motion.

UP goes the Wonder Ship.

Up past the window.

Up past the birds.

Up past the clouds.

PAUSE: Stretch both arms up. Reach.

GROWN-UPS: A big stretch resets the body after the fast claps.

ILLUSTRATION

PORTHOLE FRAME. Circular vignette filling most of the page, solid blue inside it, with the faintest hint of something very large.

Look in the porthole.

Blue.

All blue.

Something big and blue is coming.

PAUSE: Make a porthole with your hands. Peek through.

GROWN-UPS: A quiet beat. Let it sit for three seconds before you turn the page.

ILLUSTRATION

The ship descending through a column of bubbles, settling onto pale sand. Light shafts coming down from above.

Down, down, down.
Bubbles tickle the glass.
The Wonder Ship lands soft on the sand.
bloop... bloop... bloop

PAUSE: Wiggle your fingers like bubbles going up.

GROWN-UPS: Drop to a whisper on *bloop*. Underwater is a quiet world.

ILLUSTRATION

Wide reveal. Reef, fish, colour everywhere. The biggest and busiest page in the book.

We are under the sea.

Open your eyes big.

What do you see?

PAUSE: Open your eyes wide. Look around.

GROWN-UPS: Take every answer. Every answer is right. This is observation — the first science skill.

ILLUSTRATION

Close on two or three children with hands cupped behind their ears, faces concentrating hard.

**Put your hands behind your ears.
Cup them. Like this.
Listen.**

PAUSE: Cup your hands behind your ears.

GROWN-UPS: *Your amazing ears* — STEAM Class 7. The outer ear is a dish. Bigger dish, more sound.

ILLUSTRATION

One small fish drifting past. Muted, soft-edged, almost blurry — the art itself should feel muffled.

Down here, sound is slow and sleepy.

Everything sounds far away.

A little fish goes by.

No footsteps. No stomping.

Just... *shhhhhh*.

PAUSE: Say *shhhhh* very softly.

GROWN-UPS: Water carries sound differently than air — heavy, slow, muffled. *Medium*, EFV Lesson 11.

ILLUSTRATION

Children mid arm-wave. Draw the wave as an actual wave shape sweeping across the page.

Now swim.

Make a wave with your arm.

Up... and down...

and up... and down...

PAUSE: Stand up. Wave one arm like a wave.

GROWN-UPS: *Waves* — EFV Lesson 13. They are drawing a waveform in the air without knowing it.

ILLUSTRATION

Whole-body waves. The children and the fish move along the same continuous wave line.

That is how sound moves.

Wave. Wave. Wave.

Swim it slow.

Swim it with two arms.

Swim it with your whole body!

PAUSE: Whole-body wave. Slow.

GROWN-UPS: Big slow waves are low and loud. Say it if you like — they meet the words again in Kindergarten.

ILLUSTRATION

A tiny shrimp with an enormous, sharp-edged sound burst exploding out of one claw.
Maximum contrast.

CLICK!

A tiny shrimp snaps his claw.

Such a big sound

from such a little friend.

PAUSE: Snap or clap once. Loud!

GROWN-UPS: *Loud and soft* — STEAM Class 2. Small body, big energy.

ILLUSTRATION

Same shrimp, now buried in sand. The sound burst is small and fuzzy-edged. Compose it as a direct comparison to the previous page.

Then he hides in the soft, soft sand.

Click...

Now it is tiny.

Soft things eat sound.

PAUSE: Clap once with soft, floppy hands.

GROWN-UPS: *Absorption* — EFV Lesson 12, STEAM Class 14. Soft material soaks up sound energy.

ILLUSTRATION

Split composition. Left: a big clap, bold and sharp. Right: a tiny clap, small and soft.

Your turn!

BIG clap — BOOM!

tiny clap — soft.

Big. Tiny. Big. Tiny.

PAUSE: Four claps. Big, tiny, big, tiny.

GROWN-UPS: *Amplitude* — EFV Lesson 4. Same hands. Different size of vibration.

ILLUSTRATION

Whale tail stomping on the left half, seahorse tiptoeing on the right half. Children mirroring each one.

Now stomp like a big whale tail.

BOOM!

Now tiptoe like a seahorse.

tip. tip. tip.

Same feet. Different size.

PAUSE: Two big stomps. Six tiny tiptoes.

GROWN-UPS: “Same feet, different size” is amplitude in five words. Reuse that line all year.

ILLUSTRATION

QUIET PAGE. Near-navy. One enormous, slow whale silhouette, far away. Almost no detail anywhere. The children are small in the frame.

Then...
everything
goes
still.
Hoooooooooooo.
A whale is singing.

PAUSE: Nobody moves. Just listen.

GROWN-UPS: Hold this silence a full five seconds. Do not rush it. This is the heart of the book.

ILLUSTRATION

Close and warm. A child's hand flat on their own chest, the whale visible through the porthole behind them. A soft glow travelling between the two.

Put your hand on your chest.

Hum with her.

Hoooooooooooo.

Feel that?

Her song is inside you now.

PAUSE: Hand on chest. Hum low and long with the whale.

GROWN-UPS: *Resonance* — EFV Lesson 9. One vibration starts another thing vibrating. Their chest is the other thing.

ILLUSTRATION

Back inside the ship. Hands on chests. Breath-lights dimming down. Direct mirror of page 3 - same composition.

**Time to go home.
Hand on your chest.
Breathe in...
...and breathe out.**

PAUSE: Same breath as page 3. Twice.

GROWN-UPS: The mirror. This is the regulation tool — the exact move you will reuse at line-up and nap time.

ILLUSTRATION

The ship travelling home. Clap-meter fully lit. Direct mirror of page 6.

Clap. Clap. Pat. Whoosh.

Faster! Faster!

Up through the blue.

Up, up, UP!

PAUSE: The Wonder Ship Clap. Slow to fast.

GROWN-UPS: Same four beats as page 5. Third time today. That is how a pattern becomes theirs.

ILLUSTRATION

Classroom carpet again. Ship at rest, breath-lights off. Children animated, talking to each other. Mission Log sits in its own framed box.

Bump.

We are back.

Mr. Domkam smiles.

Mr. Johnson claps once.

MISSION LOG

What did the whale feel like inside you?

PAUSE: Everyone makes their own sound. Just one.

GROWN-UPS: *Signature sound* — STEAM Class 12. Every child's sound is different. Say that out loud.

The Wonder Ship Clap

You can fly any time.

1

CLAP

your hands

2

CLAP

your hands

3

PAT

your knees

4

WHOOSH

breathe out

Slow to rest.

Fast to fly.

Mentality Over Excuses — no materials, no excuses, all music.
