

THE WONDER SHIP

Among the Stars

Piloted by Mr. Domkam & Mr. Johnson

ILLUSTRATION

The Wonder Ship at rest on the classroom carpet at night, children gathering. Stars visible through the classroom window. Title above the ship.

GROWN-UPS, READ THIS PART FIRST

How to Fly This Book

This book only works if you **move**.

Every page has a **PAUSE**. Stop reading. Do the thing. Then keep going.

The breathing on pages 3 and 4 is the same in every Wonder Ship book. That is on purpose — it becomes a tool your children can use when the book is closed.

You need nothing. No materials. Just bodies, voices, and breath.

ILLUSTRATION

Children seated on the carpet, hands flat on their chests, eyes closed. Ship breath-lights dim. Warm classroom light from one side.

**The Wonder Ship is sleeping.
To wake her up, we breathe.
Put your hand on your chest.
Breathe in...**

PAUSE: Hand on chest. Breathe in.

GROWN-UPS: *Vibration* — EFV Lesson 1, STEAM Class 1. Hands stay on chests for this whole spread.

ILLUSTRATION

Same camera position, one beat later. Breath-lights brighter. One child smiling with surprise at the buzz.

...and breathe out.

Slow. Soft. Warm.

Now hum. Hmmmmmmm.

Did you feel the little buzz?

That is your engine.

PAUSE: Breathe out. Hum. Feel the buzz.

GROWN-UPS: Every sound starts as a vibration. They just found theirs.

ILLUSTRATION

Wide shot of the group, hands mid-clap. Clap-meter on the console showing 1 of 4 lamps lit. Slow, heavy, sleepy feeling.

Now the claps.

Clap. Clap. Pat. Whoosh.

Slow claps keep her sleepy.

Sloooow... claaap... paaat... whoooosh...

PAUSE: Slow it down. Four beats.

GROWN-UPS: The Wonder Ship Clap. A pattern of 4 — STEAM Class 4. Slow tempo, low energy.

ILLUSTRATION

Same shot, energy way up. Motion lines on every hand. All 4 clap-meter lamps lit. Mr. Johnson checking the sky through the porthole, Mr. Domkam counting.

Faster now. Faster!
Clap! Clap! Pat! Whoosh!
Mr. Johnson checks the sky.
Mr. Domkam counts.
One — two — three — GO!

PAUSE: Speed up the claps until liftoff.

GROWN-UPS: *Energy* — EFV Lesson 2. Faster, harder claps carry more energy. The children are the engine.

ILLUSTRATION

Exterior. The ship climbing past roof, birds, clouds, then the top of the sky. Five clear altitude bands stacked vertically.

UP goes the Wonder Ship.

Up past the roof.

Up past the birds.

Up past the clouds.

Up past the sky.

PAUSE: Stretch both arms up. Reach higher on each “up.”

GROWN-UPS: Five ups, five reaches. Build the stretch each time.

ILLUSTRATION

PORTHOLE FRAME. Circular vignette, solid black inside, scattered with gold sparkles.

Look in the porthole.

Black.

All black.

And... sparkles.

PAUSE: Make a porthole with your hands. Peek through.

GROWN-UPS: A quiet beat. Three seconds before turning.

ILLUSTRATION

The ship suspended, motionless, no ground anywhere. Engine glow fading out.
Everything very still.

The engine goes quiet.

No bump.

No landing.

We just... float.

PAUSE: Go completely still. Freeze.

GROWN-UPS: Stillness right after motion. Notice who can hold it — that is self-regulation developing.

ILLUSTRATION

Wide reveal. Stars, planets, colour. The biggest and busiest page in the book.

**We are in space.
Open your eyes big.
What do you see?**

PAUSE: Open your eyes wide. Look around.

GROWN-UPS: Take every answer. Observation before explanation.

ILLUSTRATION

One tiny bright star, drawn small and sharp, with quick tight little sound rings packed close together around it.

Look! A tiny, tiny star.

Tiny stars sing high.

eee — eee — eee

PAUSE: Sing high with the tiny star. *eee!*

GROWN-UPS: *Frequency* — EFV Lesson 3. Fast vibration sounds high.

ILLUSTRATION

One enormous slow star with wide, far-apart sound rings. Deliberate visual opposite of the previous page.

Look! A big, big star.

Big stars sing low.

ohhhhhhhhhhh

PAUSE: Sing low with the big star. *ohhh.*

GROWN-UPS: Slow vibration sounds low. Same voice, different speed. That is the whole idea.

ILLUSTRATION

Children reaching up tall on the high note and curled down small on the low note, drawn side by side so the height difference reads instantly.

Reach up high — sing high!

eee!

Curl down low — sing low!

ohhh.

High. Low. High. Low.

PAUSE: Four times. Reach and curl.

GROWN-UPS: Body height mapped to pitch. Pure EFV Lesson 3 — and it works on three-year-olds.

ILLUSTRATION

Hands wiggling fast with tight motion lines beside hands waving slow with wide loose lines. Mr. Johnson conducting.

Now wiggle your hands fast.

Fast wiggle — high sound!

Now wave them slow.

Slow wave — low sound!

Your body is the dial.

PAUSE: Wiggle fast = high. Wave slow = low.

GROWN-UPS: They are operating a frequency control. Hold your own hand up and conduct them.

ILLUSTRATION

A child stepping out of the hatch and immediately drifting. No up, no down — tip the whole composition off-axis.

Step out. Careful!
There is no down here.
You float.

PAUSE: Take one very slow step.

GROWN-UPS: Slow-motion movement is hard. It builds control, not just energy release.

ILLUSTRATION

Mr. Johnson floating upside down, glasses staying put. Mr. Domkam turning in a slow circle, scarf drifting.

Mr. Johnson floats upside down.
Mr. Domkam floats in a slow, slow circle.
Float with them.

PAUSE: Arms wide. Turn slowly in one circle.

GROWN-UPS: Vestibular input. One circle only, then stop and steady.

ILLUSTRATION

Three children mid-float-step, arms wide, drawn as a numbered 1-2-3 sequence across the page.

Float!

Arms wide. Slooooow.

One... slow... step.

Two... slow... step.

Three... slow... step.

PAUSE: Three slow floating steps.

GROWN-UPS: Counting to three while moving. Numeracy hidden inside gross motor.

ILLUSTRATION

A child crouched low, then the same child high above the ground mid-jump, then drifting down slowly. Three stages, one page.

Now a moon jump!

Bend down low...

and... BOING!

You go so high.

You come down so *slow*.

PAUSE: Three moon jumps. Land soft.

GROWN-UPS: Big proprioceptive input. This is the energy-release page — spend time here.

ILLUSTRATION

THE DARKEST, EMPTIEST PAGE IN THE SERIES. Almost nothing. A few distant stars, the children very small and very still. No sound graphics at all.

Now stop.

Listen.

▪

▪

▪

Nothing.

PAUSE: Total silence. Five seconds.

GROWN-UPS: *Vacuum* — EFV Lesson 11, STEAM Class 11. Space is empty; sound has nothing to travel through. Do not fill this page with words.

ILLUSTRATION

Close on one child, hand on chest, eyes closed, with a warm glow travelling *inward* through their own body — not outward into space.

Space is empty.
Sound needs something to swim through.
But hum — hmmmmm —
and you hear it.
Because you are something.

PAUSE: Hand on chest. Hum. You can hear yourself.

GROWN-UPS: Sound travels through solids — including the child's own bones. It is the one sound that works in space, and they carry it.

ILLUSTRATION

Back inside the ship. Hands on chests. Breath-lights dimming down. Direct mirror of page 3 - same composition.

**Time to go home.
Hand on your chest.
Breathe in...
...and breathe out.**

PAUSE: Same breath as page 3. Twice.

GROWN-UPS: The mirror. This is the regulation tool — the exact move you will reuse at line-up and nap time.

ILLUSTRATION

The ship travelling home. Clap-meter fully lit. Direct mirror of page 6.

Clap. Clap. Pat. Whoosh.
Faster! Faster!
Down through the sparkles.
Down, down, DOWN!

PAUSE: The Wonder Ship Clap. Slow to fast.

GROWN-UPS: Note the flip — Book 1 goes UP to come home, Book 2 comes DOWN. Ask them why.

ILLUSTRATION

Classroom carpet again. Ship at rest, breath-lights off. Children animated, talking to each other. Mission Log sits in its own framed box.

Bump.

We are back.

Mr. Johnson smiles.

Mr. Domkam claps once.

MISSION LOG

What did the quiet in space sound like?

PAUSE: Everyone makes their own sound. Just one.

GROWN-UPS: *Signature sound* — STEAM Class 12. Every child's sound is different. Say that out loud.

The Wonder Ship Clap

You can fly any time.

1

CLAP

your hands

2

CLAP

your hands

3

PAT

your knees

4

WHOOSH

breathe out

Slow to rest.

Fast to fly.

Mentality Over Excuses — no materials, no excuses, all music.
